## Clinical trials - offer

Silmedic Sp. z o.o. is a polish private company conducting clinical trials. Our center is engaged in the clinical trials phase II - IV criteria for major pharmaceutical companies in the world.

Our team consists of skilled specialists with years of experience in clinical and administrative staff, with years of experience in working with patients and keep detailed medical records and laboratory in accordance with the principles of Good Clinical Practice (GCP).

Our knowledge about clinical trials distinguishes us from the other centers and greatly facilitates and enhances cooperation with companies and monitoring the course of the study. We offer professional clinical trials conduct in compliance with the guidelines of ICH GCP and the applicable laws.

### Our services include:

- ! Preparing documentation required by the Central Register of Clinical Research and Bioethics Committee;
- ! Laboratory facilities;
